Passionate and results-driven React Developer with strong expertise in front-end and full-stack web technologies. Skilled in building scalable and user-centric web applications using React.js, PHP, and REST APIs. Proven track record of developing LMS and CRM platforms, enhancing performance by 30%, improving UI/UX, and managing state effectively. Experienced in collaborating across teams, integrating real-time features, and delivering clean, maintainable code.

## Internship

### React Developer

LetSkillify Software & Solution / 09/2024 - 03/2025

- Focused on UI/UX with React and managed state with Redux.
- Built and maintained components to facilitate efficient listing of institutions, courses, and services.
- Developed a CRM module for Invstobazar, enabling efficient management of customer data, communication logs, and analytics.
- Worked on the SOS Company CRM model, integrating features such as custom analytics dashboards and advanced reporting systems.
- Optimized web applications for enhanced performance and cross-browser compatibility, achieving a 25% faster load time.
- Collaborated with backend developers to integrate APIs and streamline data flow.

## Education

### Bachelor of Technology

RGPV University / 01/2021 - 01/2025

Indore

## Courses

### React Development

## Projects

### LMS Project for LetSkillify

Learning Management System

- Technology Stack: React.js, JavaScript, HTML, CSS
- Description: Built a scalable LMS system with student, instructor, and administrative panels, featuring course management, attendance tracking, and assessments.
- Responsibilities: Developed frontend components for course and student modules, integrated WebRTC for real-time communication and video conferencing, collaborated with the backend team to handle data synchronization and user authentication.

### Invstobazar – CRM Model

- Technology Stack: React.js, Redux
- Description: Developed a CRM model to manage customer relationships, data tracking, and interaction reports.
- Responsibilities: Built a user-friendly dashboard to track customer activities and generate reports, integrated email and SMS notifications to enhance customer communication, worked with backend developers to design effective data models.
